

ACFI Annual Fraud Conference Online Presentations include....

18 Nov 2020
via Zoom

Sponsored by:

“Bitcoin & How to Trace Fraud by Decrypting the Blockchain”

From silk roads to child trafficking, the internet has long been used as a method of communication. Currently, we are seeing a proliferation of cyber currencies, with various degrees of success implemented and used by the general public. Fraudsters and criminals have long looked at this as a new way to move their wealth around, and enjoy the anonymity bitcoin and other currencies offer. In this presentation, we will examine types of fraud schemes, and what to look for. You might want to look at divorce settlement figures more carefully if cyber currencies are involved ...
